FSLW

Hello and Happy October to you!

I would like to take this opportunity to introduce myself. I am Hannan Lambert and I am the new Family School Liaison Worker (FSLW) here at École Mallaig School.

For twelve years I worked as an Occupational Therapist in Long Term Care working with a variety of needs within the elderly population.

However, for the past two years I have been working with students in our school division. I really learned that I enjoy very much working in the school setting! School is a great place to be.

My role as an FSLW is to work to enhance the development of a student's educational, social, mental and emotional experiences. I provide supportive informal counseling to students.

Also I will,

-Liaise with families, school staff and community agencies

-Coordinate referrals to community support services

-Provide crisis intervention support when needed.

There are many different areas that I can and will work on with students including: alcohol/drug abuse, anger management, death/grieving, conflict resolution, depression/anxiety, self-esteem, stress management and much more.

Referrals to see me can be received from school staff, parents or guardians or a student can refer themselves.

I have always had a strong interest and desire to assist individuals with their mental well-being. I believe I can assist in developing strong and healthy youth for our community and future.

Please feel free to contact me during school hours to discuss any concerns or questions you may have.

I look forward to a fulfilling and happy school year!
